

28th IEEE/NPSS

SYMPOSIUM ON FUSION ENGINEERING

SOFE 2019

Sawgrass Marriott Resort,
Jacksonville, Florida
June 2 – 6, 2019

Call for Abstracts

Submissions are requested in all areas of fusion engineering, including:

- Experimental devices
- Next step devices and power plants
- MFE and IFE alternate concepts
- Innovative and disruptive technologies
- Divertors and high heat flux components
- Chambers, blankets, and shields
- Fueling, exhaust and vacuum systems
- IFE fusion studies and technologies
- Plasma Facing Materials and Surface Engineering
- Diagnostics engineering and integration
- Safety and neutronics
- Materials
- Heating and current drive
- Disruption mitigation and control
- Operation and maintenance, remote handling, RAMI
- Magnet Engineering
- Power and Control
- Process simulation and plant simulators (small and large scale)

Plus An open Town Hall meeting

"Future of Fusion: Transitioning to Energy Production"

For details, go to <http://sofe2019.utk.edu>

Abstracts due Dec 07, 2018
